

THE BEAST® 2680XP

35" Capacity Horizontal Grinder

The Beast® Model 2680XP offers **exceptional versatility** for tree services, municipalities, logging operations, sawmills, recycling yards and many other end users seeking a one-size-fits-all recycling solution. With either a 24-inch or 35-inch by 60-inch throat opening, the Model 2680XP can **easily handle** waste wood, plastic, rubber, roofing shingles, chunk wood and more.

CREATE VALUABLE PRODUCTS

Equip your Model 2680XP with a variety of teeth and screens to meet your specific end product spec. The Beast can be set up to take your waste wood and convert it to a valuable product that customers will pay top dollar for! And as your needs change, so can The Beast. Configure everything from the infeed speed, mill configuration and screens to meet your spec!

PRODUCE MORE, PAY LESS

The Beast's patented cuttermill utilizes a unique cutterbody holder that regulates the size of the cut. The result is a more uniform product using less energy to process material. This results in savings in fuel, wear and tear, and most importantly – time – because you get the right size on the first pass.

MAXIMUM UPTIME

The Model 2680XP is built to stand up to any daily grind. Solid steel welded construction and the industry's best components combine to create a machine professionals can trust to perform. And when you need parts or service, turn to our worldwide network of authorized dealers who are ready to offer their support.

COMMITTED TO QUALITY & SERVICE

The Bandit Backbone™ Support

The Bandit Backbone is Bandit's commitment to customer service and support. It's always been a cornerstone of Bandit's philosophy, and today that backbone is stronger than ever. If you own a Bandit hand-fed chipper – regardless the age, hours, or warranty status – the Bandit Backbone is here to support you.

We Are Here to Support You

There are nearly 200 dealer locations in the US and 61 international dealers to support you. They are factory trained. Plus we have an experienced parts and service department supporting you and our dealers.

GO-ANYWHERE TRACK MOBILITY

Caterpillar 320L steel track undercarriage can be added to the 2680XP. This feature allows it to travel over rough terrain not accessible by towable units. It also eliminates the need to forward or skid material to the grinder – the operator can take the grinder to the trees.

TEST OUR METAL

When you choose a Bandit, you'll experience more uniform end product production, smoother and more efficient grinder, long-lasting components and improved fuel economy. We invite you to see for yourself by scheduling a demo with your nearest authorized Bandit dealer.
